

August 2020

To Whom It May Concern:

It is with great pleasure that I write this strong letter of recommendation for Nina Kauf. Nina was the 2020 summer intern for our Corporate Communications team at Fiat Chrysler Automobiles. I had significant contact with Nina on a broad range of important projects with significant potential impact on our company's reputation.

Nina played a very key role in the historic launch of our second near-site health clinic in Belvidere, Ill. On this project, she managed the development of our press release, executive Q and A and organized input from executives inside and outside of FCA.

In this role, Nina displayed great maturity and professional instinct, often anticipating issues before they became problems potentially threatening the project's progress. She also provided valuable counsel to the project team.

Nina also supported me in managing our diversity PR efforts during a challenging period. She made meaningful contributions to the development of our overall strategy. She also brought her strong writing talents to developing many vital articles and other content to keep our stories in front of media, employees and other critical audiences with desired impact and metrics.

Personally, Nina is a joy to work with and is someone who makes a good team better. She is positive, willing to help the team, and always contributing thoughtful and unique insights.

I'm a strategic communications professional and speechwriter with 35 years of experience as a corporate leader and consultant. I have worked with and mentored many young talented people like Nina. She is among the best I've had the pleasure to work with.

I highly recommend Nina. She has an outstanding future.

Sincerely,
